## **Appendix III**

### **DNR Water Appropriation Permits (SWUDS)**

## **Appropriation Permit Index Notes**

MN-DNR Water Appropriation permits are required for withdrawals greater than 10,000 gallons per day or one million gallons per year.

The permit index shows each installation of all active permits. Use, agricultural acreage, permitted pumping rate (in gallons per minute) and permitted volume (in millions of gallons per year) are repeated for each installation, but pertain to the permit as a whole.

Blank values mean no reported pumping or no report.

Eight digit permit numbers (issued starting July 1999) are truncated to six digits for compatibility. example: **2000-1234** is shown as **001234**
